# data centre management

In recent times, technology change has been rapid, and Data Centres have evolved dramatically in the past few years. Today the Data Centre stands at the pivotal hub for enabling business.

It is imperative that organisations strive to derive maximum return on investment from their IT budget, not least in their Data Centres.

Ari Data Centre Management Services has developed to meet the demanding requirements of today's Data Centre environments as many organisations now rely on outsourcing to deliver flexible, cost effective IT solutions. It is designed to lower costs, reduce risk, and improve the level of service that the Data Centre provides to the business.

Working to stringent Service Level Agreements, usually under a comprehensive Scope of Works (SOW), we deliver efficient and flexible services to our clients.

Our experienced operations teams deliver first class support in maintaining your mission critical systems and the total flexibility of our services mean that you are able to tailor the support package to suit your business needs.

**Total flexibility of our services mean that you are able to tailor the support package to suit your business needs.**

- > Operations support
- > Intelligent hands and eyes
- > Media management

**At Ari we deliver a cost effective, quality led portfolio of services covering Data Centre Management, Staffing Services and Project Management.**

We have a vision to do more for our customers than just provide staff to deliver hands and eyes services. We believe that the key to success is, in fact, the success of our customers. This approach has led to many years of steady growth and profitability with many satisfied customers.

**Data Centre Management is just one of Ari's areas of expertise. We can also help you with:**

- > Data Centre Audits
- > Project Management Services
- > Operators on Demand
- > Data Centre Shut Down
- > Intelligent Hands and Eyes
- > Media Management
- > Technical Operations
- > Policy and Procedural Audits
