project management services

Many firms today simply don't have the manpower to be able to effectively run a new data centre project whilst continuing to manage their existing operations. In addition, many such projects require specialised skills not normally expected from internal IT Staff. We recognise that where money is being spent on such a project, it is imperative that it is delivered professionally, on-time and on-budget.

Ari can provide Project Management expertise to supplement your existing capabilities on a short-term assignment basis, anything from a few days to a few months.

All of our Ari Project Managers work with clients to ensure your Data Centre investment remains efficient and cost effective, helping realise better results and maximising your return on investment.

All project work is delivered in line with ITIL best practices.
able to tailor the support package to suit your business needs.

Examples of where Ari's Project Management expertise can be provided to assist in the following areas are:

- > Assistance with planning, consolidation and relocation of Data Centres
- > Carrying out of Data Centre audits
- > Creation of documentation including Service Level Agreements
- > Creation and implementation of management processes
- > Use and creation of method statements and risk assessments
- > Creation of a Data Centre management team
- > Use of power and temperature monitoring tools
- > Standardisation of key infrastructure equipment

At Ari we deliver a cost effective, quality led portfolio of services covering Data Centre Management, Staffing Services and Project Management.

We have a vision to do more for our customers than just provide staff to deliver hands and eyes services. We believe that the key to success is, in fact, the success of our customers. This approach has led to many years of steady growth and profitability with many satisfied customers.

Project Management Services is just one of Ari's areas of expertise. We can also help you with:

- > Data Centre Management
- > Data Centre Audits
- > Operators on Demand
- > Data Centre Shut Down
- > Intelligent Hands and Eyes
- > Media Management
- > Technical Operations
- > Policy and Procedural Audits
